

Marine Biologists Wanted

We at Aqua-World are looking for dedicated, hard-working and passionate marine biologists to assist us in our new Dorsal Dolphin Wing at our Toronto location! No work experience is necessary.

Are you an educated (B.Sc in biology or a related field of study) marine biologist with a passion for dolphins, or aquatic animals in general? If so, this job is perfect for you! Whether you're experienced in working with marine life, or just out of university, AquaWorld is ready to give you the opportunity to learn from- and teach -dolphins of varying ages and species.

A position as a dolphin trainer at AquaWorld involves:

- Caring for dolphins and supervising the feeding and cleaning of dolphins and their living areas
- Observing and recording data on well-being and behaviour of dolphins
- Teaching, training and publicly presenting routines with dolphins for audiences
- Speaking with AW visitors about dolphins
- Salaries ranging between \$35000-\$55000, based on experience and specialization (via direct deposit)

(Left: Our facilities provide marine biologists with the opportunity to care for, study, and interact with dolphins in a fun, supportive and hands-on environment.

For any questions on the application process, other career opportunities in other regions, or to learn more about Aqua-World, call: 1-888-AQUA-STUFF or visit our website at www.aquaworld.biocom.
